

In and around the house!

EcoHome odour remover

This enzymatic, natural odour remover destroys the odour causing molecules in the air naturally. Instead of disguising the odour with perfume, the spray attacks the source of the smell and the odour disappears. You'll notice the results after only a few moments. EcoHome is ideal for eliminating odours such as toilet odours, the smell of smoke, food odours, and nursery odours.

EcoHome is available as a 100 ml pump spray and a 1 litre refill bottle.

EcoCar odour remover

This enzymatic, natural odour remover destroys the odour causing molecules in the air naturally. EcoCar is ideal for eliminating food odours, cigarette smoke and the smell of petrol or diesel etc.

EcoCar is available as a 100 ml pump spray and a 1 litre refill bottle.

Green waste OdorShield deodorizer

This liquid was specially developed to combat the stench of vegetable and garden waste. OdorShield works by capturing the odour producing molecules and effectively locking in the odours of food waste etc. at the source.

The viscous nature of the product extends the effective protection against odour nuisance. As it is biodegradable, it is ideal for use with green bins etc.

OdorShield is available as a 500 ml trigger spray.

Ecodor Healthcare products

EcoClinic odour remover

EcoClinic is an environmentally friendly odour eliminator made from natural enzymes.

This air freshener makes odours disappear when it comes into physical contact with the odour producing molecules. Unlike ordinary "air fresheners", EcoClinic removes unwanted odours rather than masking them with perfumed air.

Application: unpleasant odours in fabrics, bandages, body odours, faeces, perspiration, urine, burns, medical equipment, old dressings, stoma bags etc.

EcoClinic is available as a 200 ml pump spray and a 1 litre refill bottle.

EcoFeet

This spray is designed to deal with those unwanted odours coming from smelly feet and shoes. EcoFeet breaks up odour molecules naturally, so the smell just disappears instead of being masked. Ideal for use in shoes or even directly on the feet, but can also be used on clothes and other parts of the body.

EcoFeet is available as a 100 ml pump spray and a 1 litre refill bottle.

ECODOR ODOUR REMOVING PRODUCTS

Ecodor odour removing products eliminate unpleasant odours!

Our odour removing products neutralize odour quickly and naturally without using environmentally harmful chemicals and/or odour masking products. Ecodor products contain a natural enzyme that works as a catalyst to break down the odour producing molecules found in unpleasant smells. Once sprayed, the Ecodor product will rapidly break down and eliminate the odour molecules that are producing the unpleasant smell. Our products are non-perfumed and therefore ideal for use in places where you do not want the smell replaced by perfumed air.

All Ecodor products are non toxic, non irritating, bacteria free, biologically degradable and contain no propellants.

Ecodor for Pets

Ecopet odour and stain remover

ECODOR EcoPet odour and stain remover spray is a bio-active enzymatic spray that removes the bio-molecules causing unpleasant odours in areas where pets eat, play, sleep, use litter trays etc. Unlike ordinary "air fresheners" EcoPet removes the unwanted odour instead of simply disguising the smell with perfume. As well as removing unwanted smells, EcoPet also removes stains caused by faeces and vomit from carpets, sofas, curtains, bedding and textiles. Simply clean up any solids, then spray the remaining stain, allow the spray to soak for one minute and rub dry with a dry cloth.

Ecopet is available as a 0.2 litre pump bottle and a 1 litre refill bottle.

EcoPet Wonderclean coat cleaner

This Ecodor product allows you to clean your pet's coat without water and can be used on dogs, cats and rodents. Ecodor Wonderclean coat cleaner is based on harmless vegetable protein which removes unpleasant odours and dirt from your pet's coat. Ecodor Wonderclean coat cleaner is non irritating, hypo-allergenic and leaves your pet's coat clean and shiny.

Ecopet Wonderclean coat cleaner is available as a 150 ml Foamer and a 1 litre refill bottle.

Ecodor UF2000 Urine Odour Remover

Ecodor UF2000 is a strong odour neutralizer. It is highly effective in combating the smell of urine. UF2000 breaks down the penetrating smell using an enzyme. It is effective against the smell of urine in concrete, on stone, parquet floors, wood, laminate, granite and marble, for example. It will also treat urine smells coming from the joints between tiles etc. It is also ideal for removing the smell of urine from furniture, carpets, vinyl and fabrics.

This product can also be used to clean in places where animals are kept – catteries, kennels, rodent cages, barns etc. For example, it is ideal for daily cleaning of litter trays and kennels.

UF2000 is available as a 500ml Trigger spray, a 1 litre refill bottle, a 1 litre concentrate (makes 5 litres) and a 2.5 litre concentrate (makes 12.5 litres).

Ecodor Urine stain detector

Locate urine stains otherwise invisible to the naked eye using this handy "urine detector" lamp.

The (dried) salts present in the urine will light up allowing you to source and treat the stain.

All made easier with this powerful detector.
