

UNSCENTED

FOR BAD ODOURS OF GARDEN WASTE

ECOSHIELD

ECOLOGICAL DEODORIZER

EcoShield is a specially developed viscous fluid, which tackles nuisance caused by bad smells at the source. What makes EcoShield special is that it covers the source of the stench like a kind of protective blanket. Whenever EcoShield is applied to a source of stench, it provides twin protection against nuisance caused by bad smells. First of all, the spread of stench is combatted by the insulating film and secondly, the stench molecules are absorbed and broken down by enzymes in the viscous fluid.

INSTRUCTIONS FOR USE

Spray generously in space. If any odour remains, repeat.

COMPOSITION

Water, fermented vegetable enzymes and preservative.

READY-TO-USE

STORE AT ROOM TEMPERATURE
DOES NOT CONTAIN PROPELLANT
PACKAGING CAN BE RECYCLED
