

UNSCENTED

FOR REMOVING FIRE AND SOOT ODOURS

ECOSMOKE

SMOKE AND SOOT ODOURS CONTROL

EcoSmoke is based on enzymes. Enzymes are capable of speeding up the natural break down of odour molecules, which cause malodour. The EcoSmoke formulation has been especially developed to eliminate smoke and soot odours, simply by spraying it in burnt out houses, on furniture etc.

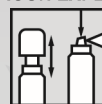

INSTRUCTIONS FOR USE

Where possible, spray a light covering directly onto burnt areas. Spray into the air, misting the environment, wait a few minutes, repeat as needed. It is suggested to use an atomiser in situations where the EcoSmoke droplets need to be absorbed deep into the surfaces, and the relative increase in moisture is not desired. e.g. Ceilings, Cavity Walls, Plaster boarded walls, furniture, polyether foam.

COMPOSITION

Water, complex of organic vegetable enzymes, surface activated substances derived from grains, citric acid, Polyalcohols, CPC

ICON EXPLANATION

Pump several times with cap in order to build up pressure and cap decrease spraying.

This packaging contains refill

All our products feature this icon. Our products are 100% environmentally friendly and biodegradable

TYPE OF PACKAGING **PRODUCTCODE**
200 ML SPRAY BOTTLE.....13.60.003
LANGUAGE: DE | EN | FR | NL | PL | UA

TYPE OF PACKAGING **PRODUCTCODE**
1000 ML REFILL READY-TO-USE..... 13.60.001
LANGUAGE: NL | FR | DE | EN | PL | UA | PT

READY-TO-USE
STORE AT ROOM TEMPERATURE
DOES NOT CONTAIN PROPELLANT
PACKAGING CAN BE RECYCLED
BIODEGRADABLE
