

EcoGlass Window Cleaner leaves windows & mirrors with a streak free shine. Ready to use. Made from a complex of surface activated substances derived from plant extracts. Leaves a clean streak free shine in one application. The result will impress even the most discerning user. This spray cleaner can be used on all water resistant smooth surfaces to instantly create a fresh and visibly clean result.

Directions for use:

Spray to moisten the surface evenly and sparingly. Leave a few seconds to work. Remove the excessive surface liquid with a lint-free cloth or paper towel, to allow uniform drying. Suitable for windows, mirrors, windshields, ceramic tiles, chrome, porcelain, TVs, monitors and all other water resistance smooth surfaces.
