EcoClean for a shining clean surface and freshness!

Active Ecodor formula to remove the dirt directly without effortlessly scrubbing.

Directions for use

For all water-resistant surfaces such as appliances, counter, table, bath, tiles, etc. Spray directly onto the surface and let EcoClean do its job for about one minute. Rub down with a cloth or a damp sponge. Rinsing is not necessary. With hard to clean surfaces/stains, let EcoClean set for a longer period then wipe well with clean cloth. Repeat treatment if necessary.
