

EcoCar is ideal for eliminating food odours, cigarette smoke and the smell of petrol or diesel etc.

This enzymatic, natural odour remover destroys the odour causing molecules in the air naturally.

EcoCar is non-irritant and non-allergenic. EcoCar is produced from harmless, water-soluble vegetable proteins. This makes EcoCar safe for use in the immediate vicinity of humans, animals and food. Contains no propellant. Leaves no stains.

Instructions for use:

Remove the source of the smell, if possible. Pump the top several times to build up pressure. Remove top. Spray EcoCar liberally around the room. Leaves no stains. Contains no propellant. Refillable. Recyclable packaging. Keep at roomtemperature.
